## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Claims 1 & 2 are allowed.
2. The following is an examiner's statement of reasons for allowance: The prior art does not disclose or suggest a tire monitoring system wherein the control voltages are controlled so that the output level from the synthesizer is maximized with respect to a transmitting signal from any one of the tire mounting positions to identify each of the tire mounting positions by comparing values of the control voltages thus controlled with the association table and wherein the control voltages stored respectively for the tire mounting positions are applied to a transmitting signal from any one of the tire mounting positions, so as to obtain the output level from the synthesizer and to detect a degree of the level, whereby the tire mounting position is identified.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
